Airfield of DOEBERITZ

25X

1. About 40 fighters were parked at the DOEBERITZ (N 53 1/2 65) airfield between 8:30 and 10 a.m. Description: Low-wing mono-planes; radial engine; retractable landing gear; rear section of faired cockpit projecting into rudder assembly; some of the aircraft were two-seaters, most of them single-seaters. The aircraft did local flying.

2. The following aircraft were parked at the DOEBERITZ airfield:

- a. Ten fighters with radial engine in front of a hangar at the southern field border.

- b. Ten fighters with radial engine in front of the repair hangar at the eastern border and one at the entrance gate (with the No.96) at the northern field border.

3. Comment:

The report confirms the occupation by fighters of the DOEBERITZ airfield. Two fighter regiments are assumed to be stationed at the DOEBERITZ airfield. The numerical designation of these regiments is unknown. Both regiments, equipped with LAs, together with a third fighter regiment stationed in STAACKEN belong to one division.

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the Archivist of the United States.
